

Raosahab Wangde Master Charitable Trust's
DNYANSHREE
INSTITUTE OF ENGINEERING AND TECHNOLOGY

Department of Mechanical Engineering

Program Specific Outcomes (PSOs)

Mechanical Engineering Graduates will be able to -

- 1) Able to become expert in product design, thermal engineering and manufacturing systems by applying mechanical engineering principles.
- 2) Build an ability to conduct experiments and simulate the real life situations involved in engineering using computational techniques and instrumentation for working in research and industrial environments.
- 3) Attain expertise in traditional and cutting edge technologies, such as, Additive Manufacturing, Robotics, Automation and Smart Systems, Industrial Internet of Things (IIoT) etc. for analyzing and solving practical problems of industry and society.
